

VortexIQ Troubleshooting Guide v1.0

Solutions to the most common issues reported by VortexIQ customers

Section 1: Login and Access Issues

If you cannot log in check that you are using the correct email address.

Ensure Caps Lock is off when entering your password.

Try resetting your password using the Forgot Password link.

If using SSO contact your IT administrator to verify your account is active.

Clear browser cookies and try logging in using incognito mode.

If your account is locked wait 15 minutes before trying again.

Contact support@vortexiq.com if you are still unable to log in after 30 minutes.

Section 2: Performance Issues

If VortexIQ is loading slowly check your internet connection speed.

Try using a different browser such as Chrome Firefox or Edge.

Disable browser extensions especially ad blockers and VPNs.

Clear your browser cache by pressing Ctrl Shift Delete.

If the issue persists on multiple browsers contact support with a screenshot.

Large workspaces with many projects may experience slower load times.

Contact support if your workspace has more than 500 projects.

Section 3: Notification Issues

If you are not receiving email notifications check your spam folder.

Add noreply@vortexiq.com to your email whitelist or contacts.

Verify your notification preferences under Settings then Notifications.

Check that your email address is verified under Settings then Account.

Mobile push notifications require the VortexIQ app version 3.0 or higher.

Enable notifications in your phone settings for the VortexIQ app.

Section 4: Integration Issues

If Slack integration stops working disconnect and reconnect from Settings.

Ensure the VortexIQ Slack app has permission to post in your channels.

GitHub integration requires admin access to the repository being linked.

Jira sync issues are usually caused by expired Jira API tokens.

Regenerate your Jira API token and update it in VortexIQ integrations.

Google Workspace SSO issues should be reported to your Google admin.

All integration logs are available under Settings then Integrations then Logs.

Section 5: File Upload Issues

VortexIQ supports files up to 50MB per upload.

Supported formats are PDF DOCX XLSX PNG JPG GIF MP4 and ZIP.

If an upload fails check that the file is not corrupted.

Try uploading from a different browser or device.

Enterprise customers have a 500MB file size limit.

Contact support if you need to upload files larger than your plan limit.

Section 6: Billing Issues

If your payment fails update your card details in Settings then Billing.

Check that your card has not expired and has sufficient funds.

Some banks block international transactions - contact your bank if needed.

If you were charged incorrectly contact billing@vortexiq.com within 7 days.

Downgrade requests take effect at the end of your current billing period.

Annual subscriptions are non-refundable after the first 7 days.

To cancel your subscription go to Settings then Billing then Cancel Plan.

Section 7: Data and Export Issues

Data exports can take up to 24 hours for large workspaces.

Export files are sent to your registered email as a ZIP file.

If you do not receive the export email check your spam folder.

Exports include all projects tasks comments files and user data.

Deleted items are not included in exports.

Contact privacy@vortexiq.com for GDPR data requests.

Section 8: Getting More Help

Check the VortexIQ Help Center at help.vortexiq.com for step by step guides.

Join the VortexIQ Community Forum at community.vortexiq.com.

Submit a support ticket at help.vortexiq.com/submit.

Email support@vortexiq.com for account and technical issues.

Email billing@vortexiq.com for all billing and payment issues.

Pro plan customers receive priority support with 4 hour response time.

Enterprise customers have a dedicated account manager available 24/7.
