

Section 1: Getting Started

VortexIQ is an AI-powered project management and team collaboration platform.

To create an account visit app.vortexiq.com and click Get Started for free.

Enter your full name, work email address, and a password of at least 8 characters.

A verification email arrives within 5 minutes. Click Activate Account to continue.

After activation you are taken to the onboarding wizard which sets up your workspace.

The onboarding wizard takes approximately 3 minutes to complete.

You can skip onboarding and return to it later from Settings then Onboarding.

Section 2: Account and Profile Management

Update your profile from the top right avatar menu then click Profile Settings.

You can change your display name, job title, timezone, and notification preferences.

To change your email address go to Settings then Account then Change Email.

A confirmation link is sent to both old and new email addresses before the change applies.

To change your password go to Settings then Security then Change Password.

Passwords must be at least 8 characters and contain one uppercase and one number.

Two-factor authentication is available under Settings then Security then Enable 2FA.

Supported 2FA methods are authenticator apps and SMS verification.

Section 3: Password and Login Help

If you forget your password click Forgot Password on the login page.

Enter your registered email and a secure reset link is sent within 2 minutes.

Password reset links expire after 30 minutes for security reasons.

If you do not receive the reset email check your spam or promotions folder.

After 5 consecutive failed login attempts your account is temporarily locked.

Account lockouts last 15 minutes and reset automatically.

Contact support@vortexiq.com if your account remains locked after 15 minutes.

For SSO users password resets are handled by your identity provider not VortexIQ.

Section 4: Billing and Subscription Plans

VortexIQ offers four plans: Free, Starter, Pro, and Enterprise.

The Free plan supports 1 workspace, 3 projects, and up to 2 team members at no cost.

The Starter plan costs 9 dollars per user per month billed annually or 12 monthly.

Starter includes unlimited projects, 10GB storage, and email support.

The Pro plan costs 29 dollars per user per month billed annually or 35 monthly.

Pro includes everything in Starter plus advanced analytics, priority support, and 100GB storage. The Enterprise plan is custom priced for organizations with 50 or more users. Enterprise includes SSO, SLA guarantees, dedicated account manager, and unlimited storage. To upgrade go to Settings then Billing then Upgrade Plan and select your desired tier. Downgrades take effect at the end of the current billing cycle. Cancellations also take effect at the end of the current billing cycle. Refund requests within 7 days of a charge are reviewed case by case by the billing team. Contact billing@vortexiq.com for all billing related inquiries.

Section 5: Payment Methods

Accepted payment methods are Visa, Mastercard, American Express, and PayPal. Bank transfers are available for Enterprise annual contracts only. To update your payment method go to Settings then Billing then Payment Methods. VortexIQ does not store full card numbers. Payments are processed via Stripe. Invoices are generated on the first of each month and emailed to the billing contact. To download past invoices go to Settings then Billing then Invoice History.

Section 6: Team and User Management

Workspace admins can invite team members from Settings then Team then Invite. Enter the email address of the invitee and select their role before sending. Available roles are Owner, Admin, Editor, Commenter, and Viewer. Owners have full access including billing, deletion, and role management. Admins can manage users, projects, and settings but cannot access billing. Editors can create, edit, and delete content within assigned projects. Commenters can view content and add comments but cannot edit or delete. Viewers have read-only access and cannot make any changes. To change a users role click their name in the Team list and select Change Role. To remove a user click their name and select Remove from Workspace. Removed users lose access immediately and receive an automated notification email. Guest access allows external users limited access to specific projects only.

Section 7: Projects and Workspaces

A workspace is the top level container for your organization in VortexIQ. Each workspace can contain unlimited projects on paid plans. To create a project click New Project on the dashboard and enter a name and description. Projects can be set to Public visible to all workspace members or Private by invitation. Archive a project from Project Settings then Archive to hide it without deleting. Archived projects can be restored at any time from Settings then Archived Projects.

To delete a project permanently go to Project Settings then Delete Project.

Deleted projects cannot be recovered. Export your data before deleting.

Section 8: Integrations

VortexIQ integrates natively with Slack, GitHub, Jira, Google Workspace, and Zapier.

To connect an integration go to Settings then Integrations and click Connect.

Slack integration sends project notifications and task updates to your Slack channels.

GitHub integration links commits and pull requests directly to VortexIQ tasks.

Jira sync keeps tasks in bidirectional sync between VortexIQ and your Jira board.

Google Workspace integration enables Google SSO and Google Drive file attachments.

Zapier integration allows connection to over 5000 third party apps.

To disconnect an integration click Manage next to the integration then Disconnect.

Section 9: API and Developer Tools

VortexIQ provides a REST API for programmatic access to all platform features.

Full API documentation is available at docs.vortexiq.com/api.

To generate an API key go to Settings then Developer then API Keys then New Key.

API keys are shown only once at creation. Store them securely.

Never commit API keys to source code or share them publicly.

Rate limits are 500 requests per hour on Free and Starter plans.

Pro plans have 2000 requests per hour. Enterprise plans have custom rate limits.

API errors with status 401 indicate an invalid or expired API key.

API errors with status 429 indicate you have exceeded your rate limit.

Webhook support is available on Pro and Enterprise plans.

Section 10: Data, Privacy, and Security

All VortexIQ data is encrypted at rest using AES-256 and in transit using TLS 1.3.

Data is stored in EU-based servers and complies with GDPR requirements.

VortexIQ does not sell, rent, or share user data with third parties for advertising.

To export all your workspace data go to Settings then Data then Export Workspace.

Data exports are delivered as a ZIP file to your registered email within 24 hours.

To delete your account go to Settings then Account then Delete Account.

Account deletion is permanent. All data is purged within 30 days of deletion.

For data deletion requests under GDPR contact privacy@vortexiq.com.

VortexIQ undergoes annual SOC 2 Type II audits. Reports available on request.

Section 11: Troubleshooting Common Issues

If the dashboard loads slowly clear your browser cache and hard reload with Ctrl+Shift+R.

If you see a blank white screen disable browser extensions and try incognito mode.

If notifications are not appearing check your notification settings and browser permissions.

If file uploads fail ensure the file is under 50MB and in a supported format.

Supported upload formats are PDF, DOCX, XLSX, PNG, JPG, MP4, and ZIP.

If integrations stop syncing disconnect and reconnect the integration from Settings.

If the mobile app crashes update to the latest version from the App Store or Play Store.

For persistent issues contact support@vortexiq.com with your account email and a description.

Section 12: Contacting Support

Email support is available at support@vortexiq.com with a 24 hour response time.

Live chat support is available Monday to Friday 9am to 6pm GMT.

Pro plan customers receive priority email support with a 4 hour response time.

Enterprise customers have a dedicated account manager and 24/7 phone support.

To submit a support ticket go to help.vortexiq.com and click Submit a Request.

Include your account email, a description of the issue, and any relevant screenshots.

For urgent billing issues call our billing hotline at +44 20 1234 5678.
